

PLHIV STIGMA INDEX WEBINAR SERIES

**A Quick Look at the NIH HIV Research Program
and the NIH Office of AIDS Research
(in 5 minutes or less!)**

Paul Gaist, PhD, MPH
NIH Office of AIDS Research
July 6, 2022

NIH and the NIH OAR Within HHS

NIH's Mission

“Turning Discovery into Health”

To seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability.

NIH Research

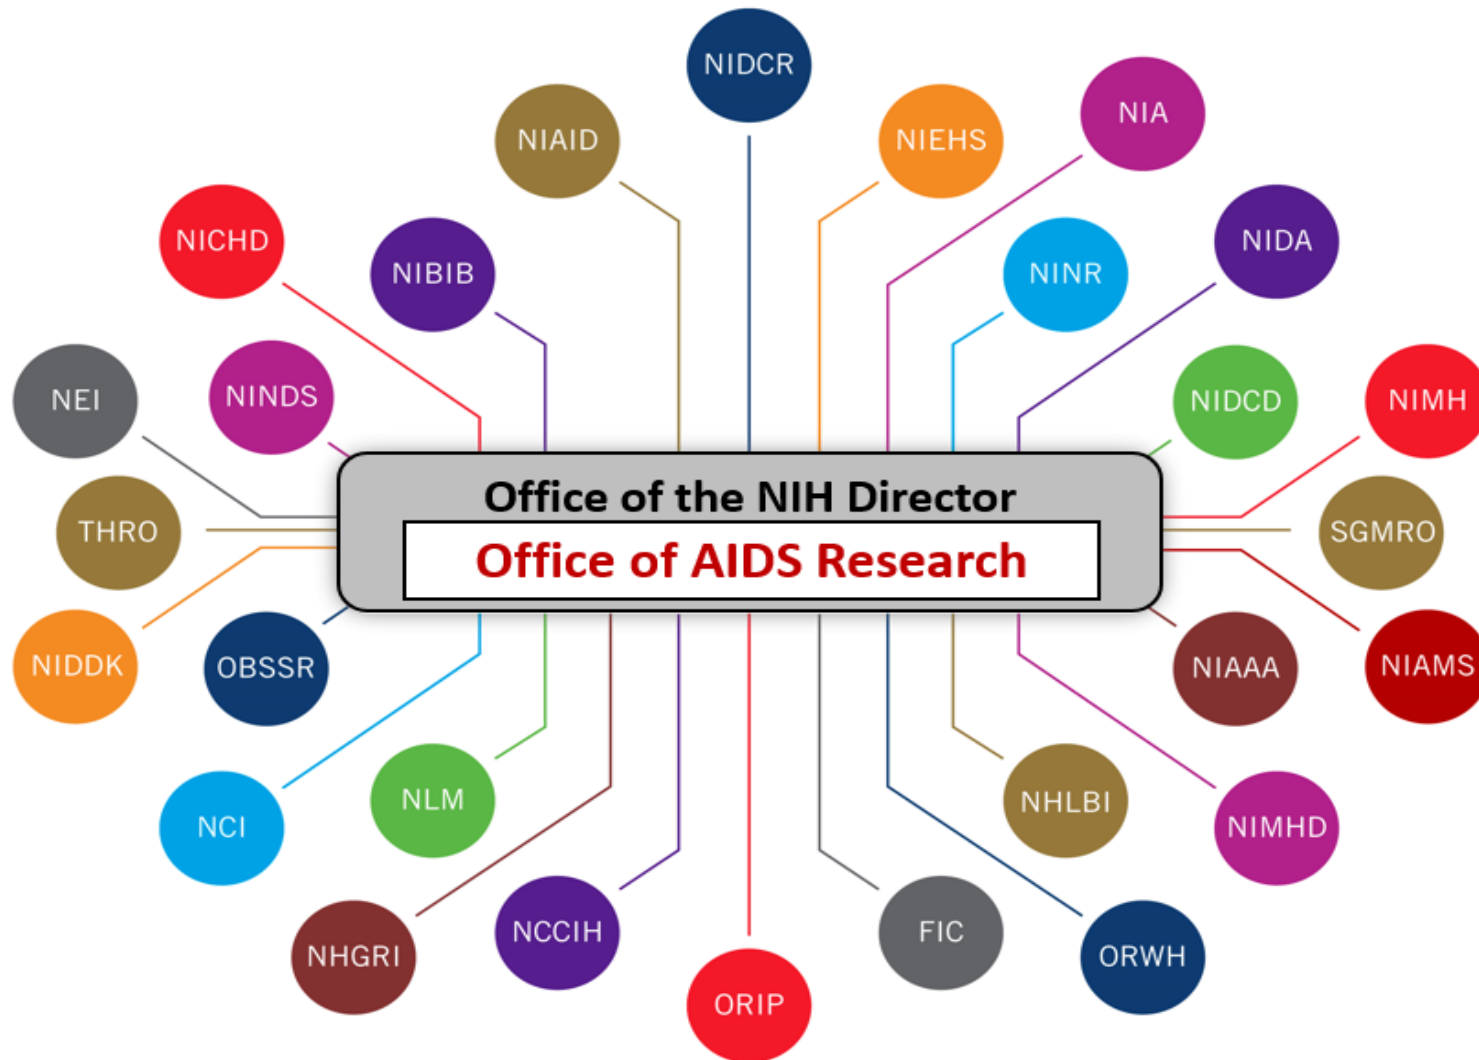

The NIH invests \$45 billion* annually in health research

- ~50,000 active NIH grants & projects per year (*FY22)

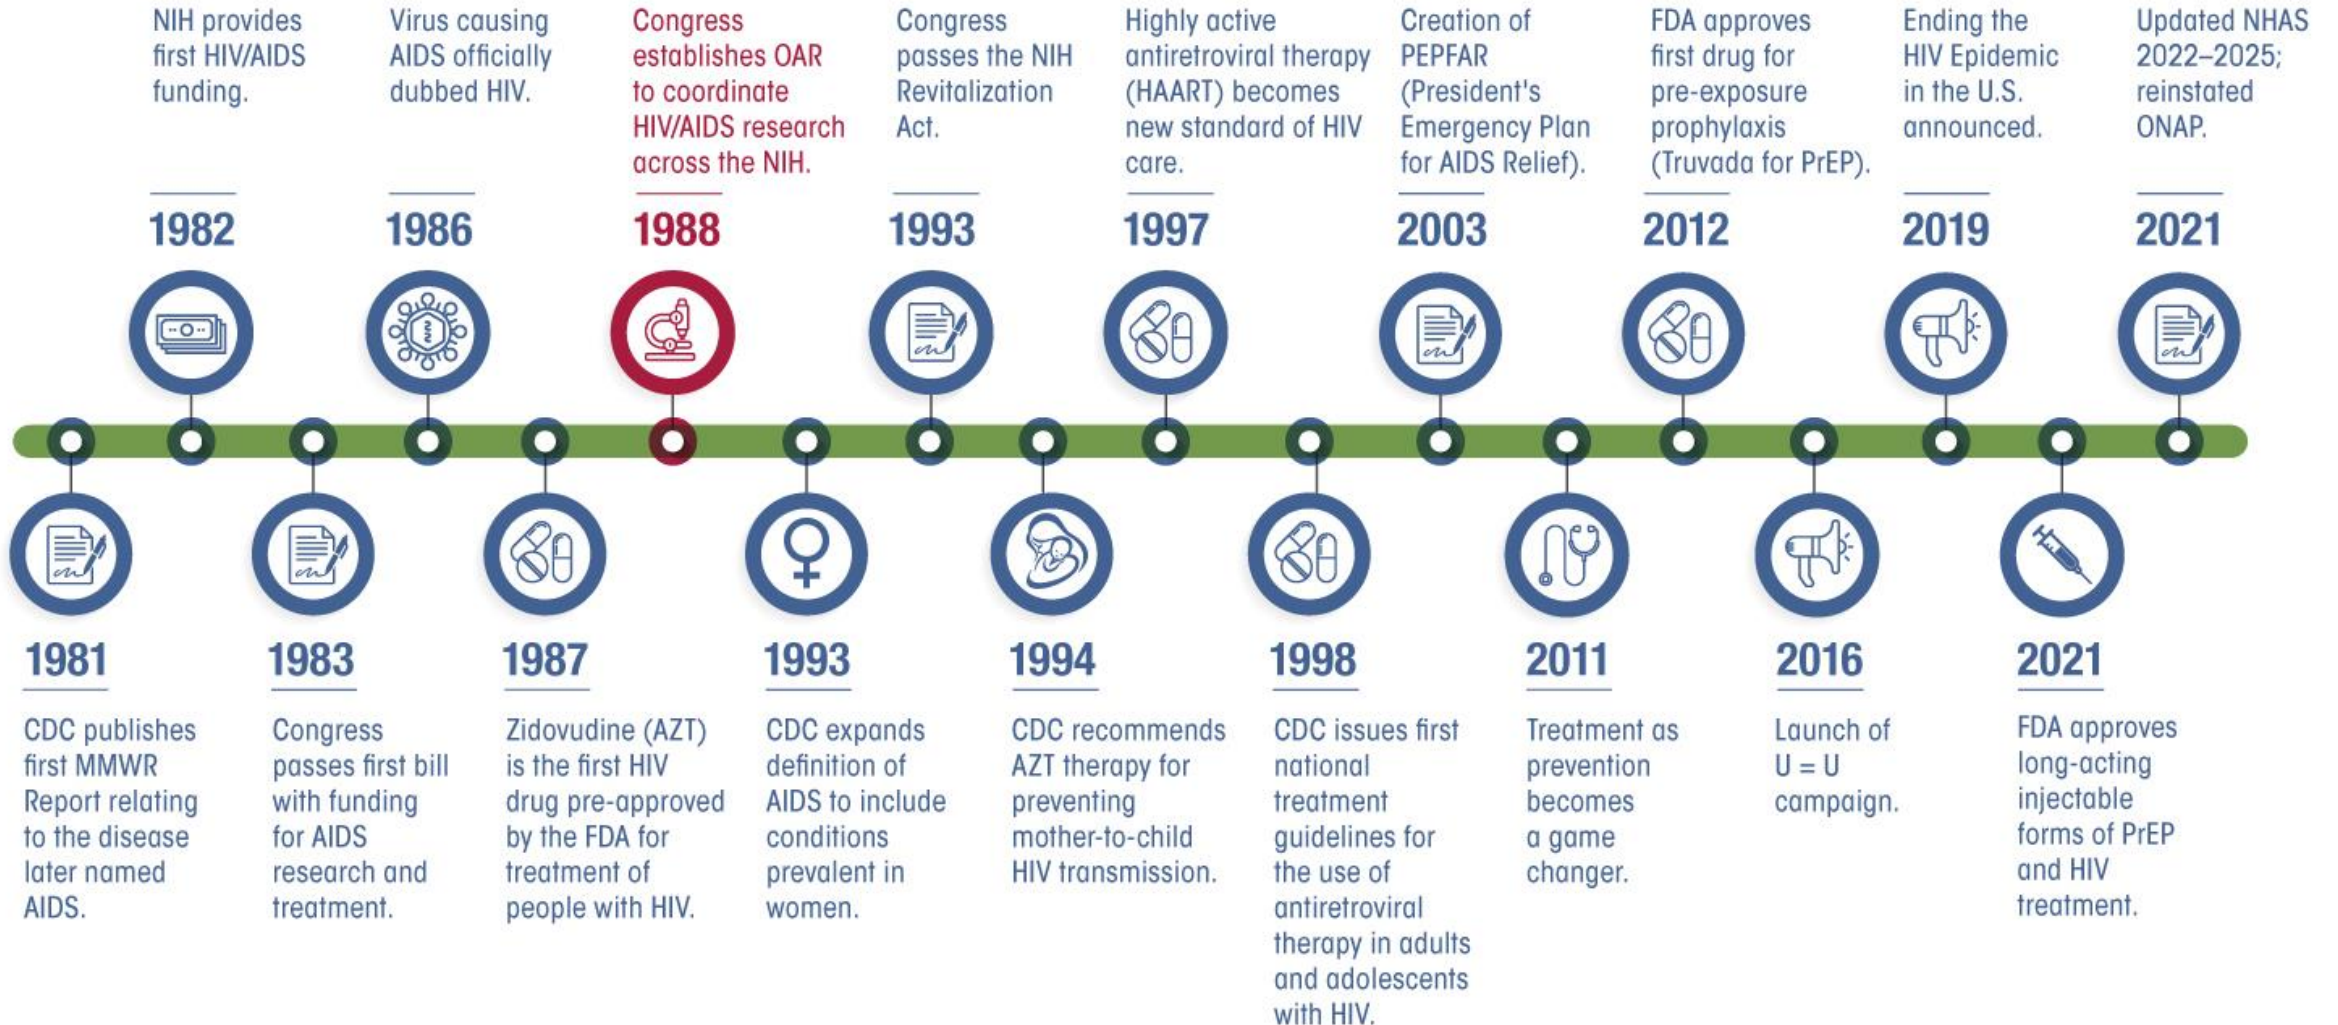

Of that, \$3.1 billion* is for HIV/AIDS research

- ~4,000 active HIV/AIDS grants & projects per year (*FY22)

NIH OAR Coordinates the NIH HIV Research Program

Progress Against HIV/AIDS

NIH HIV Research Program

5 Overarching Research Priorities

- Reducing HIV/AIDS Incidence
- Next Generation Therapies
- Develop a Cure for HIV/AIDS
- Improve Treatments for HIV-associated Comorbidities and Coinfections
- Crosscutting Research: Basic, Health Disparities, Training, BSSR, and Information Dissemination
