Global AIDS Monitoring Framework 2022–2026

2030 | Ending the AIDS epidemic
Global AIDS Monitoring (GAM)

• The mechanism through which countries report to UNAIDS on progress towards global targets adopted in the Political Declaration

• Reporting framework consists of:
  • Quantitative indicators, including on financing
  • Policy questionnaire (the National Commitments and Policy Instrument, NCPI)

• Monitoring Technical Advisory Group (MTAG) provides advice and guidance to UNAIDS on defining the framework

• Country rapporteur from national AIDS authority or equivalent assigned by government as focal point for reporting
  • Coordinates multi-sectoral process, including communities and civil society

• Data to inform national planning/review processes and global reports
Societal enablers – 3 overarching targets

• Less than 10% of countries have punitive legal and policy environments that deny or limit access to services

• Less than 10% of people living with HIV and key populations experience stigma and discrimination

• Less than 10% of women, girls, people living with HIV and key populations experience gender inequality and violence
